How to Boost Your Credit Score Range and Make Money With

Credit Cards. Ernesto Martinez

2019-06-19 Having a low credit score can be very expensive and cause you to miss out on opportunities. In my case, I was

trying to refinance my \$300,000 mortgage. My credit score was 620 because I had some negative items on my credit that I wasn't aware of, and extra debt on my credit cards that I could not afford to pay off. I was quoted an interest rate of 6.25% because of my low credit score. Instead of taking the loan, I repaired my credit by removing the incorrect items and paid down some of the debt on my credit cards. I waited a month, and my credit score jumped to 725. I reapplied for the loan and got a quote of 4.5%. If you have one mortgage, buy 3 cars over the 30 year period, and carry \$10,000 credit card debt over

the 30 year period, you will spend an extra \$238,500 on additional interest, or another way to look at it, you will throw away \$238,500 to have the same things had you not maintained a healthy credit history and score. If you need to increase your credit score to move into a new apartment, house, buy a car, or get loans for business. This book has a complete game plan on how to get started and get the end results you're looking for. If you're in a bind and need quick results, this book will show you how to increase your credit score in hours! This book will teach you the fundamentals of credit repair, how the credit

system works, and how to maximize your credit benefits. Plus, we offer recommendations on how to develop a monthly cash flow system that can generate thousands of dollars per month and use your credit cards to buy real assets like real estate. This credit guide will teach you how to make money with your credit like a professional investor and help you build new streams of income. Success is learnable, follow the strategies in this book, and open yourself to a new world of opportunities. "Dr. Ernesto Martinez offers a wealth of advice and information that any consumer

would do well to follow and implement. I highly recommend this book for anyone interested in fixing their finances and generating new forms of income." Justin Degeneffe, Credit Counselor

There are many misconceptions about credit scores out there. There are customers who

believe that they don't have a credit score and many customers who think that their credit scores just don't really matter. These sorts of misconceptions can hurt your chances at some jobs, at good interest rates, and even your chances of getting some apartments. The truth is, if you have a bank account and bills, then you have a credit score, and your credit score matters more than you might think. Your credit score may be called many things, including a credit risk rating, a FICO score, a credit rating, a FICO rating, or a credit risk score. All these terms refer to the same thing: the three-digit number that lets

lenders get an idea of how likely you are to repay your bills. Every time you apply for credit, apply for a job that requires you to handle money, or even apply for some more exclusive types of apartment living, your credit score is checked. In fact, your credit score can be checked by anyone with a legitimate business need to do so. Your credit score is based on your past financial responsibilities and past payments and credit, and it provides potential lenders with a quick snapshot of your current financial state and past repayment habits. In other words, your credit score lets lenders know quickly how much

of a credit risk you are. Based on this credit score, lenders decide whether to trust you financially - and give you better rates when you apply for a loan. Apartment managers can use your credit score to decide whether you can be trusted to pay your rent on time. Employers can use your credit score to decide whether you can be trusted in a high-responsibility job that requires you to handle money. The problem with credit scores is that there is quite a bit of misinformation circulated about, especially through some less than scrupulous companies who claim they can help you with your credit report and credit

score - for a cost, of course. From advertisements and suspect claims, customers sometimes come away with the idea that in order to boost their credit score, they have to pay money to a company or leave credit repair in the hands of so-called "experts." Nothing could be further from the truth. It is perfectly possible to pay down debts and boost your credit on your own, with no expensive help whatsoever. In fact, the following 101 tips can get you well on your way to boosting your credit score and saving you money. By the end of this ebook, you will be able to:

- Define a credit score, a credit report, and other key

- financial terms
- Develop a personalized credit repair plan that addresses your unique financial situation
- Find the resources and people who can help you repair your credit score
- Repair your credit effectively using the very techniques used by credit repair experts

Plus, unlike many other books on the subject, this ebook will show you how to deal with your everyday life while repairing your credit. Your credit repair does not happen in a vacuum. This book will teach you the powerful strategies you need to build the financial habits that will help you to keep a high credit risk rating. It really is that simple. Start

reading and be prepared to start taking small but powerful steps that can have a dramatic impact on your financial life!

What most non-investors and investors – including yourself – probably don't realize is that although gold is a great way to preserve your wealth, it's silver that could actually make you rich! The price of gold has already risen dramatically, but silver is just beginning its parabolic climb. Over the last 9 years the silver price increased an average of

to avoid it.) Change Your Credit
Score, Change Your Life All you
have to do is a little bit of
digging to see all the ways that
a low credit score can hurt you.
To see the doors that will slam
in your face because of it. So
don't allow yourself to stay in
