**The Loss of the SS Titanic** Lawrence Beesley 2009 The circumstances in which this book came to be written are as follows. Some five weeks after the survivors from the Titanic landed in New York, I was the guest at luncheon of Hon. Samuel J. Elder and Hon. Charles T. Gallagher, both well-known lawyers in Boston. After luncheon I was asked to relate to those present the experiences of the survivors in leaving the Titanic and reaching the Carpathia. When I had done so, Mr. Robert Lincoln O'Brien, the editor of the Boston Herald, urged me as a matter of public interest to write a correct history of the Titanic disaster, his reason being that he knew several publications were in preparation by people who

had not been present at the disaster, but from newspaper accounts were piecing together a description of it. He said that these publications would probably be erroneous, full of highly coloured details, and generally calculated to disturb public thought on the matter. He was supported in his request by all present, and under this general pressure I accompanied him to Messrs. Houghton Mifflin Company, where we discussed the question of publication. Messrs. Houghton Mifflin Company took at that time exactly the same view that I did, that it was probably not advisable to put on record the Loss of the SS. Titanic, by Lawrence Beesle 4 incidents connected with the Titanic's sinking: it seemed better to forget details as rapidly as possible. However, we decided to take a few days to think about it. At our next meeting we found ourselves in agreement again, --but this time on the common ground that it would probably be a wise thing to write a history of the Titanic disaster as correctly as possible. I was supported in this decision by the fact that a short

account, which I wrote at intervals on board the Carpathia, in the hope that it would calm public opinion by stating the truth of what happened as nearly as I could recollect it, appeared in all the American, English, and Colonial papers and had exactly the effect it was i

**The Fitzhenry and Whiteside Book of Canadian Facts and Dates** Richard W. Pound 2006-07-01 More than 14,000 individual date-by-date entries in this single volume chronology of Canadian history This single-volume chronology of Canada from its prehistoric beginnings to the social, cultural, business and political happenings of the present age is the most comprehensive and up-to-date book of its kind in the market today. With more than 14,000 date-by-date entries and featuring both a detailed general index as well as a separate index of names, the book is an invaluable resource and reference work for students, teachers, and researchers. Equally important, it is a valuable treasure trove of Canadiana -- a volume, like a dictionary, atlas or encyclopedia, that should find its way onto the shelves of every home, office, media, public, university and school library. Under the general editorship of Richard Pound, more than 25 researchers, editors and contributors were assigned to research and validate important events and dates in the areas of women's issues, human rights, science and technology, transportation, medicine, communications, art and literature, education, sports, agriculture, music and at least a dozen other areas of national interest.

**Aesthetic Subjects** Pamela R. Matthews 2003 Recent calls for a return to aesthetics occur precisely at a moment when it is increasingly evident that nothing concerning aesthetics is self-evident anymore. Determined to recover the value of aesthetic experience for artistic, cultural, and social analysis, the contributors to this volume--prominent scholars in literature, philosophy, art history, architecture, history, and anthropology--begin from a shared recognition that ideological readings of the aesthetic have provided invaluable insights, in particular, that analyses of aesthetics within historical and social contexts tell us a great deal about the experience of aesthetic encounters. From multiple and complementary perspectives, the contributors address topics as varied as Nabokov and Dickens, Caravaggio and Shelley Winters, gender and sexuality, advertising and AIDS. Taken together, their essays constitute a sustained and multifarious effort to resituate aesthetic pleasure in the mixed, impure conditions characteristic of every social practice and experience, however privileged or marginalized, and to ask what happens to the aesthetic if we consider it apart from--or at least in tension with--its historically dominant discursive formulations. As such, this volume establishes a renewed sense of aesthetic discourse and its usefulness as a tool for understanding culture.

*Encyclopedia of Bioethics* Stephen G. Post 2004  
*Modern Art and the Grotesque* Frances S. Connelly 2009-07-16 Frances Connelly examines how the concept of the "grotesque" has influenced the history, practice,

and theory of art in the nineteenth and twentieth centuries. The grotesque has been adopted by a succession of artists as a way to push beyond established boundaries; explore alternate modes of experience and expression; and challenge the status quo. Examining specific images by a range of artists, such as Ingres, Gauguin, Höch, de Kooning, Polke, and Mona Hatoum, these essays encompass a variety of media--including medical illustration, paintings, prints, photography, multimedia installations, and film.

**The Anatomy of Ethical Leadership** Lyse Langlois 2011-02-01 Maximizing productivity without regard for human consequences, the quest for profit above all else, the stifling of individual personality and creative expression, a competitive atmosphere--these are the reigning features of the modern workplace. Although many writers have called attention to the debilitating effects of this dehumanization of the working environment, solutions have been less in evidence. In *The Anatomy of Ethical Leadership*, Lyse Langlois frames the problem in terms of ethics, pointing to the fact that managers are often uncertain how to integrate ethical considerations into their process of decision making. She explores the instrumental, often highly legalistic patterns of thought that pervade modern organizations and proposes instead a new emphasis on dialogue and on modes of reasoning that make room for the complexity of ordinary reality. To that end, she outlines a trajectory for ethical, responsible, and authentic decision making--the TERA model--that managers can use to evaluate workplace situations, taking into account three interrelated ethical perspectives: care, justice, and critique. Leaders who have mastered the art of ethical thinking, she argues, can in turn foster

relationships among co-workers that are not only more human but ultimately more productive.

European Warfare, 1350–1750 Frank Tallett 2010-01-28 The period 1350–1750 saw major developments in European warfare, which not only had a huge impact on the way wars were fought, but also are critical to long-standing controversies about state development, the global ascendancy of the West, and the nature of 'military revolutions' past and present. However, the military history of this period is usually written from either medieval or early-modern, and either Western or Eastern

European, perspectives. These chronological and geographical limits have produced substantial confusion about how the conduct of war changed. The essays in this book provide a comprehensive overview of land and sea warfare across Europe throughout this period of momentous political, religious, technological, intellectual and military change. Written by leading experts in their fields, they not only summarise existing scholarship, but also present new findings and new ideas, casting new light on the art of war, the rise of the state, and European expansion.

*The Literary Protégées of the Lake Poets* Mr Dennis Low 2013-04-28 Dennis Low's re-evaluation of the Lake Poets as mentors begins with the controversial premise that Robert Southey was one of the nineteenth-century's greatest champions of women's writing. Together with Wordsworth and Coleridge, Low argues, Southey tried to end what he perceived to be the cultural decline of literature by nurturing the creative talents of many exceptional women writers. Drawing on 3,000 unpublished manuscripts in England, Scotland and the United States, Low examines the lives and works of four of the Lake Poets' literary protégées: Caroline Bowles, Maria Gowen Brooks, Sara Coleridge and Maria Jane Jewsbury. Though diverse in terms of their literary production, these women were united in their defiant efforts to write against an increasingly stagnant cultural milieu and their negotiation, wholeheartedly encouraged by their mentors, of contemporary publishing mores. This scrupulously researched book is a valuable contribution

to the study of little-known women writers and to our understanding of the literary and publishing environment of Britain in the 1820s and 1830s.

*Unsinkable* Daniel Allen Butler 2012-01-02 The first modern work to give a comprehensive picture of the RMS Titanic and the people intertwined with her fate, from disaster to recovery. Drawn from primary sources and contemporary accounts and updated to coincide with the April 2012 anniversary, this new heart-rending narrative allows readers to come to their own conclusions about this legendary vessel. Daniel Allen Butler spend more than 30 years researching the work, delving into the lives of every principal participant. In addition to examining the roles played by individual, he also looks into the problems of equipment and errors in technical data that resulted in the deaths of 1502 people. Rather than focussing on the night of the tragedy alone, he also investigates the events leading up to and following the fateful night.

*The Pleasures of Reading in an Age of Distraction* Alan Jacobs 2011-05-26 In recent years, cultural commentators have sounded the alarm about the dire state of reading in America. Americans are not reading enough, they say, or reading the right books, in the right way. In this book, Alan Jacobs argues that, contrary to the doomsayers, reading is alive and well in America. There are millions of devoted readers supporting hundreds of enormous bookstores and online booksellers. Oprah's Book Club is hugely influential, and a recent NEA survey reveals an actual uptick in the reading of literary

fiction. Jacobs's interactions with his students and the readers of his own books, however, suggest that many readers lack confidence; they wonder whether they are reading well, with proper focus and attentiveness, with due discretion and discernment. Many have absorbed the puritanical message that reading is, first and foremost, good for you--the intellectual equivalent of eating your Brussels sprouts. For such people, indeed for all readers, Jacobs offers some simple, powerful, and much needed advice: read at whim, read what gives you delight, and do so without shame, whether it be Stephen King or the King James Version of the Bible. In contrast to the more methodical approach of Mortimer Adler's classic *How to Read a Book* (1940), Jacobs offers an insightful, accessible, and playfully irreverent guide for aspiring readers. Each chapter focuses on one aspect of approaching literary fiction, poetry, or nonfiction, and the book explores everything from the invention of silent reading, reading responsively, rereading, and reading on electronic devices. Invitingly written, with equal measures of wit and erudition, *The Pleasures of Reading in an Age of Distraction* will appeal to all readers, whether they be novices looking for direction or old hands seeking to recapture the pleasures of reading they first experienced as children.

**Writing New Media** Anne Wysocki 2007-03-01 As new media mature, the changes they bring to writing in college are many and suggest implications not only for the tools of writing, but also for the contexts, personae, and conventions of writing. An especially visible change has been the increase of visual elements--from typographic flexibility to the easy use and manipulation of color and images. Another would be in the scenes of writing--web sites, presentation "slides," email, online

conferencing and coursework, even help files, all reflect non-traditional venues that new media have brought to writing. By one logic, we must reconsider traditional views even of what counts as writing; a database, for example, could be a new form of written work. The authors of *Writing New Media* bring these ideas and the changes they imply for writing instruction to the audience of rhetoric/composition scholars. Their aim is to expand the college writing teacher's understanding of new media and to help teachers prepare students to write effectively with new media beyond the classroom. Each chapter in the volume includes a lengthy discussion of rhetorical and technological background, and then follows with classroom-tested assignments from the authors' own teaching.

*The Future of the Book* Geoffrey Nunberg 1996-12-19 The death of the book has been duly announced, and with it the end of brick-and-mortar libraries, traditional publishers, linear narrative, authorship, and disciplinarity, along with the emergence of a more equitable discursive order. These essays suggest that it won't be that simple. While the contributors to this volume are enthusiastic about the possibilities created by digital technologies, they also see the new media raising serious critical issues that force us to reexamine basic notions about rhetoric, reading, and the nature of discourse itself.

**The Critical Response to Truman Capote** Joseph J. Waldmeir 1999 One of the most controversial American authors of the twentieth century, Truman Capote is best known as the author of *In Cold Blood* (1966), a work of

literary journalism that recounts the slaughter of the Clutter family in Holcomb, Kansas, in 1959. But he also wrote numerous short stories, dozens of nonfiction pieces for popular magazines, several other novels, and some works for Hollywood and Broadway. Since his death in 1984, scholarly interest in his writings has grown considerably. This volume traces the critical reception of his works. Included are previously published reviews and essays, along with some pieces written specifically for this book. The volume is divided into several sections on broad topics. Each section is organized chronologically and traces both the development of Capote's talents and the evolution of critical attitudes toward his work. A comprehensive introduction charts the history of Capote's critical reception, and extensive bibliographic material records the present state of scholarship.
