And Fred Patten is largely responsible. He was reading manga and watching anime before most of the current generation of fans was born. In fact, it was his active participation in fan clubs and his prolific magazine writing that helped create a market and build American anime fandom into the vibrant community it is today.

Watching Anime, Reading Manga gathers together a quarter-century of Patten's lucid observations on the business of anime, fandom, artists, Japanese society and the most influential titles. Illustrated with original fanzine covers and archival photos. Foreword by Carl Macek (Robotech). Fred Patten lives in Los Angeles. "Watching Anime, Reading Manga is a worthwhile addition to your library; it makes good bathroom browsing, cover-to-cover reading, and a worthwhile reference for writing or researching anime and manga, not to mention a window into the history of fandom in the United States." -- SF Site

Global Manga Casey Brienza 2016-03-09 Outside Japan, the term 'manga' usually refers to comics originally published in Japan. Yet nowadays many publications labelled 'manga' are not translations of Japanese works but rather have been wholly conceived and created elsewhere. These comics, although often derided and dismissed as 'fake manga', represent an important but understudied global cultural phenomenon which, controversially, may even point to a future of 'Japanese' comics without Japan. This book takes seriously the political economy and cultural production of this so-called 'global manga' produced throughout the Americas, Europe, and Asia and explores the conditions under which it arises and flourishes; what counts as 'manga' and who gets to decide; the implications of global manga for contemporary economies of cultural and creative labour; the ways in which it is shaped by or mixes with local cultural forms and contexts; and, ultimately, what it means for manga to be 'authentically' Japanese in the first place. Presenting new empirical research on the production of global manga culture from scholars across the humanities and social sciences, as well as first person

pieces and historical overviews written by global manga artists and industry insiders, Global Manga will appeal to scholars of cultural and media studies, Japanese studies, and popular and visual culture.

Pikachu's Global Adventure Joseph Tobin 2004-01-15 Initially developed in Japan by Nintendo as a computer game, Pokémon swept the globe in the late 1990s. Based on a narrative in which a group of children capture, train, and do battle with over a hundred imaginary creatures, Pokémon quickly diversified into an array of popular products including comic books, a TV show, movies, trading cards, stickers, toys, and clothing. Pokémon eventually became the top grossing children's product of all time. Yet the phenomenon fizzled as quickly as it had ignited. By 2002, the Pokémon craze was mostly over. *Pikachu's Global Adventure* describes the spectacular, complex, and unpredictable rise and fall of Pokémon in countries around the world. In analyzing the popularity of Pokémon, this innovative volume addresses core debates about the globalization of popular culture and about children's consumption of mass-produced culture. Topics explored include the origins of Pokémon in Japan's valorization of cuteness and traditions of insect collecting and anime; the efforts of Japanese producers and American marketers to localize it for foreign markets by muting its sex, violence, moral ambiguity, and general feeling of Japaneseness; debates about children's vulnerability versus agency as consumers; and the contentious question of Pokémon's educational value and place in school. The contributors include teachers as well as scholars from the fields of anthropology, media studies, sociology, and education. Tracking the reception of Pokémon in

Japan, the United States, Great Britain, France, and Israel, they emphasize its significance as the first Japanese cultural product to enjoy substantial worldwide success and challenge western dominance in the global production and circulation of cultural goods. Contributors. Anne Allison, Linda-Renée Bloch, Helen Bromley, Gilles Brougere, David Buckingham, Koichi Iwabuchi, Hirofumi Katsuno, Dafna Lemish, Jeffrey Maret, Julian Sefton-Green, Joseph Tobin, Samuel Tobin, Rebekah Willet, Christine Yano
